Patient Name: 61-year-old male
Original Medication: Proscar
Validated Medication: Proscar

Patient Name: 78-year-old female patient
Original Medication: Atenolol 50 mg daily
Validated Medication: Atenolol 50 mg daily

Patient Name: 78-year-old female patient
Original Medication: Premarin 0.625 mg daily
Validated Medication: Premarin 0.625 mg daily

Patient Name: 78-year-old female patient
Original Medication: Calcium with vitamin D two to three pills daily
Validated Medication: Calcium with vitamin D two to three pills daily

Patient Name: 78-year-old female patient
Original Medication: Multivitamin daily
Validated Medication: Multivitamin daily

Patient Name: 78-year-old female patient
Original Medication: Aspirin as needed
Validated Medication: Aspirin as needed

Patient Name: 78-year-old female patient
Original Medication: TriViFlor 25 mg two pills daily
Validated Medication: TriViFlor 25 mg two pills daily

Patient Name: 41-year-old white female
Original Medication: Methadone
Validated Medication: Methadone

Patient Name: 41-year-old white female
Original Medication: Norco
Validated Medication: Norco

Patient Name: 41-year-old white female
Original Medication: Tenormin
Validated Medication: Tenormin

Patient Name: 41-year-old white female
Original Medication: Skelaxin
Validated Medication: Skelaxin

Patient Name: 41-year-old white female
Original Medication: Wellbutrin SR
Validated Medication: Wellbutrin SR

Patient Name: 41-year-old white female
Original Medication: Naprosyn
Validated Medication: Naprosyn

Patient Name: 49-year-old white female
Original Medication: amoxicillin 500 mg b.i.d.
Validated Medication: amoxicillin 500 mg b.i.d.

Patient Name: 49-year-old white female
Original Medication: Tazorac cream 0.1
Validated Medication: Tazorac cream 0.1

Patient Name: 49-year-old white female
Original Medication: Septra DS
Validated Medication: Septra DS
